First one is Haj-e- Baitullah Second one is Eid Al Adha both expected to occur on 15 and 16th November 2010 respectively subject to appearance of crescent of Dhu al-Hijjah 1431 H and Third occasion is successful completion of the first year of two years term of the current body of office bearers, Advisory Committee and Managing Committee of Memon Jamat who took over office and started its activities by holding first meeting of full board on 17th November 2009.

We know that Eid al-Adha is celebrated annually on the 10th day of the month of Dhu al-Hijjah of the lunar Islamic calendar. command). Eid is also about spending time with family and friends, sacrifice, and thanksgiving for being able to afford food and housing. In traditional or agrarian settings, each family would sacrifice a domestic animal, such as a sheep, goat, cow, or camel, by slaughter.

The meat would then be divided into three equal parts to be distributed to others. The family eats one third, another third is given to other relatives, friends or neighbors, and the other third is given to the poor as a gift.

We wish to convey Haj Mubarak to those brothers and sisters who will be going to perform Haj this year and express heartiest EID MUBARAK to the entire Memon Community and also congratulations to the current Office Bearers and Members of Advisory and Managing Committees for completing first year of their two years term successfully.

Wishing Memon Jamat all the best and success in their noble aim and in all upcoming social and welfare programs for our community.

USED vs LOVED

While a man was polishing his new car, his 4 yr old son picked up a stone and scratched lines on the side of the car.

, the man took the child's hand and hit it many times not realizing he was using a wrench. In anger

At the hospital, the child lost all his fingers due to multiple fractures.

When the child saw his father with painful eyes he asked, 'Dad when will my fingers grow back?'

he went back to his car and The man was so hurt and speechless; kicked it a lot of times.

Devastated by his own actions. sitting in front of that car he looked at the scratches; the child had written 'LOVE YOU DAD'

The next day that man committed suicide. . .

Anger and Love have no limits; choose the latter to have a beautiful, lovely life & remember this:

Things are to be used and people are to be loved.

The problem in today's world is that people are used while things are loved.

Let's try always to keep this thought in mind:

Things are to be used, People are to be loved.

Watch your thoughts; they become words.

Watch your words; they become actions.

Watch your actions; they become habits.

Watch your habits; they become character;

Watch your character; it becomes your destiny.

I'm glad a friend forwarded this to me as a reminder.

I hope you have a good day no matter what problems you may face.

It's the only day you'll have before it's over.

Signs of the Day of Judgment

NASA confirms possibility of sun rising from the West

The science of astronomy states that the speed of planet Mars has been decreasing in its course toward the eastern direction in the past few weeks to the level we notice the "waver" between the east and the west...

Then in the months of August and September...Mars changed its course in the opposite direction to the West- and that until the end of September...which means the sun will rise now from the west on Mars!! And this weird phenomena of the opposite movement is called "Retrograde Motion" Most scientists believe that all the planets will go through the same once at least and our planet Earth is one of them. Planet Earth will move in the opposite direction some day and the sun will rise from the west!!

This might occur soon and we are unaware! The rise of the sun from the west is mentioned in the hadith and this is the major sign of the day of judgment, most if not all, the minor signs have occurred. Wake up.

Our beloved messenger Mohamed (Peace Be Upon Him) said: "One of the signs of the hour..the sun will rise from the west, where no longer tauba (forgiveness) will be granted" !!And the strange thing..most of our Shariah scholars mentioned that the rise of the sun from the west occurs only once..on that day..the sun will rise from the west..then again from the east..and continues until Allah wishes..and this is similar to what is happening to Mars..it stops, then it changes its course of direction for a short period of time..then returns to way once it was.

And Abdullah Bin Amro (R.A.) said: (I memorized from the messenger (SAW) a hadith I

will never forget..I heard the messenger of Allah (SAW) say: The first aya to come the day of the sun from the west) [Ahmad]. And the messenger SAW "Allah places HIS hand at night to forgive his morning sinners, and places in the morning to forgive his night sinners until the sun rises from the west" [Muslim].

This piece of news is very important as it brings with it a great sign of warning and remembrance of the coming of a new WORLD - the world of hereafter When we show this hadith that was told 1400 years ago about this miracle..you will see InshaALLAH, a lot will revert to right path...And the Muslims if they see this phenomena happening in Mars..who knows maybe it would bring them closer to our CREATOR.

May Allah keep all of us in the right path and provide us with success in this world as well as in the hereafter.
